PRESS RELEASE

JONES COUNTY ECONOMIC DEVELOPMENT CREATES A JONES COUNTY
CARRER OPPORTUNITIES INITIATIVE

The Jones County Economic Development Commission in partnership with Jones County business and industry has established a careers feature on the Jones County Economic Development website.

Marty Kelzer, Executive Director for the Commission, stated that although he has only been in the position for a month and has not visited all of the business/industry in Jones County, he has recognized the need for a county-wide job posting site on the web, “through the economic development business retention plan that we have put in place, we found that employers in Jones County need a one-stop site that individuals looking for employment in Jones County can access and find which companies have available positions.” Kelzer added, “this is economic developments first phase of what will continue to be an ongoing job/career opportunity initiative in Jones County. We realize the need for employees in Jones County and therefore have created this option on our website for easy access to those looking for a job/career.” Kelzer also noted that Jones County is certainly not unique when it comes to the available labor pool, the trend continues throughout the state, however Kelzer stated, we are determined to continue our efforts to let those individuals looking for employment know what is available here in Jones County.

To view the site, go to www.jonescountydevelopment.com and simply click the Careers (New!) option in the top tool bar.

If you are a business in Jones County and want to post your available positions please call the Jones County Economic Development office at 319-462-5310.
